

# Increasing Peace of Mind

2016 PROJECTS IMPROVE  
RELIABILITY BY 70%

Completed multi-year  
installation of more than

**2.4 million**  
electric smart meters.

Trimmed

**650,000**  
trees.

Installed more than

**3,500** new smart  
grid sensors  
and other technology.

Upgraded equipment on over

**200** customer-serving  
circuits,

and replaced approximately  
3,000 utility poles to  
strengthen reliability.

Began construction on

**4** new  
substations

and upgraded equipment  
in many other substations.

Increasing your  
reliability by up to

**70%**
