

# HOW IT WORKS

1. Clean energy is produced from renewable energy projects throughout Michigan.
2. You enroll your home in MIGreenPower to support renewable energy development.
3. You don't need to sign a contract. Once you join, you can adjust your participation level at any time.
4. Use our online tool to see the change to your monthly bill.
5. Receive your welcome kit and proudly share your participation with your community.

# REDEFINE HOW YOU USE ENERGY

Join MIGreenPower and reduce your home's carbon footprint with local renewable energy.

**MIGreenPower**

# CHOOSE YOUR ENERGY WISELY

More and more Michigan residents are interested in reducing their environmental impact. That's why we believe it's our job to offer our customers clean energy — and as much as they'd like.

MIGreenPower is a simple and affordable program that offers you the option to increase the amount of renewable energy sourced from local wind and solar projects.

Beyond lowering your home's carbon footprint, participating means joining a new program that is supporting the development of wind and solar installations in Michigan and helping to protect the environment for future generations.

# PROGRAM BENEFITS

- + Reduce your electricity-based carbon footprint
- + Support the development of cost-effective, renewable energy sources in Michigan
- + No installation or maintenance
- + Protect the environment for future generations
- + No contract to sign
- + Continue to receive reliable and trusted electric service from DTE Energy

## LOCAL

MIGreenPower is sourced by local solar and wind energy projects in Michigan. By joining, you are supporting the growth of renewable energy resources in Michigan.

## FLEXIBLE

You can select the amount of renewable energy development you support in 5 percent increments, up to 100 percent — giving you the power to choose the level of impact that works best for you.

## AFFORDABLE

For less than \$0.70 per day on average, you can buy Michigan-made clean energy to meet 100 percent of your home's electricity needs. \*

# HOW MUCH DOES IT COST?

You can participate in MIGreenPower at a level that suits your preferences and budget. For example, the average household will see an increase of about \$10 per month to their bill when enrolling at the 50 percent level.\*

Use our online calculator at [dteenergy.com/migreenpower](https://dteenergy.com/migreenpower) to estimate your monthly cost and environmental impact.
