

# Beacon Park serves as one of the region's most recognized four-season, accessible locations.

We are proud to be home to numerous amenities and programs that connect visitors, businesses and the community in Southeast Michigan. Beacon Park offers stunning seasonal installations, an open lawn space and a contemporary two-story restaurant with spectacular views of the city. Each season, we host or help organize activities that offer guests a place to work, relax, or just enjoy the open air. Our location is also centrally located and adjacent to several mobility options.
